STATOTHR

1. Thank you for the interesting letter from [REDACTED]
I think it might be worthwhile to write him and say that the possibility of his association with this office will be of continuing interest and that certainly if he is in town any time in the future, I would like to talk to him.

2. Even if we fill whatever vacancies are available, the future may require increases and we would like to give him some idea of our problems. You might ask him to let us know in advance so that I can be sure to be here.
